Education

B.Tech in Computer Science and Engineering , Amrita Vishwa Vidyapeetham, Coimbatore	2023 – 2027
• CGPA: 7.97 / 10	
Class 12 (ISC Board) , Jeevana School, Madurai	2020 – 2022
• Percentage: 88%	
Class 10 (ICSE Board) , Jeevana School, Madurai	2019 – 2020
• Percentage: 92%	

Work Experience

Full Stack Developer Intern – SMI Techsolutions Pvt. Ltd. [View]	May 2026
• Developed full-stack features for registration workflows, profile management, and API integration across frontend and backend services.	
• Built responsive UI components, implemented schema migrations and validation handling, and improved frontend accessibility and application performance.	

Projects

ArchMind: Real-Time Codebase Intelligence Platform TypeScript, React, Go, Rust, Python, Neo4j	
• Built a VS Code extension for real-time codebase visualization using interactive dependency graphs.	
• Developed a microservices backend for code parsing, dependency analysis, and Neo4j-based graph storage.	
• Implemented architecture analysis features including impact detection, circular dependency tracking, and code importance scoring.	
Edge Computing Load Balancer Simulation Python, YAFS	
• Simulated healthcare IoT workloads using YAFS to analyze task distribution across edge and cloud nodes.	
• Implemented a latency-aware load balancing strategy based on communication and computation metrics.	
• Generated performance visualizations to evaluate workload distribution under varying system configurations.	
Electrical Billing & Inventory Management System React, FastAPI, MongoDB, Tailwind CSS	
• Developed a full-stack billing and inventory management platform with responsive dashboards and backend workflow automation.	
• Implemented JWT authentication, bulk CSV/Excel import pipelines, automated stock and ledger tracking, and GST-based pricing workflows.	
• Integrated PDF invoice generation, sales analytics visualizations, and WhatsApp receipt sharing features.	

Technical Skills

Programming Languages: C, C++, Java, Python, Go, SQL, HTML5, CSS3, JavaScript, TypeScript
Frameworks / Libraries: React.js, Node.js, Express.js, Tkinter, NumPy, Pandas, Matplotlib
Databases: MySQL, MongoDB, PostgreSQL
Tools / Technologies: Docker, GitHub, Linux (CLI), VS Code, Jupyter Notebook, AWS, MATLAB

Certifications

AWS Certified Solutions Architect – Training Program , Apttron [View]	June 2025
• Covered AWS core services, architectural best practices, and cloud design principles	
Elevate – Data and AI Excellence Program , Jozuna Skillful Academy [View]	October 2025
• Completed a structured program covering data fundamentals, cloud concepts, and AI basics
